

CS-4W

Production Case for 442 Mixer

The CS-4W is a high-performance production case designed for the 442 Production Mixer. Intended to be used during operation, the CS-4W holds the mixer and includes a pocket suitable to hold an NP-type battery and cup. Its full-sized, removable wireless accessory can hold up to six wireless transmitters or receivers. Additionally, it can accommodate PortaBrace RM-series accessories or a Sound Devices CS-3 bag (302/7-Series) can be mounted to the front or back. The CS-4W is built for Sound Devices by Camrade.

FEATURES

- Easy access to front panel control surface
- Generous-sized, removable wireless accessory bag can be mounted to front or back of bag
- Full length side-exit cable and controller access
- Generous-sized pocket suitable to hold an NP-type battery
- Clear windowed cover for viewing front panel during covered operation with room for hand access at sides
- Accessory mounts on both front and back-side
- High-quality padded leather shoulder strap with metal clasps

OPERATIONAL NOTES

- The mixer can be mounted in either orientation, depending on what is most beneficial.
