

CS-2

Product Information

The CS-2 is a high-quality production case designed and built exclusively for compact Sound Devices MixPre and MP-2 mixers and preamplifiers. The CS-2 is built by Porta-Brace. The CS-2 will accommodate

the preamplifier, an NP-style battery, and wireless transmitters or receivers. The unit includes a belt loop and leather shoulder strap.

Features

Durable Construction

- ✓ Padded, durable nylon material for shock resistance and temperature insulation.

Secure Main Compartment

- ✓ Main compartment holds the MixPre or MP-2 securely .

Side Access Cable Management

- ✓ Side exit cable runs with hook and loop closures.
- ✓ Access to input and output panel switches and connectors.

Battery Pouch

- ✓ NP-style battery pouch with hook and loop enclosure.
- ✓ Convenient, internal power-cable routing.

Shoulder Strap and Belt Loop

- ✓ Comfortable, adjustable-length padded-leather strap.
- ✓ Belt loop for stability.

Windowed Cover

- ✓ Viewing of all metering with cover in place.
- ✓ Can be rolled back and held with hook and loop fasteners.

Operational Notes

- Operate the mixer with the accessory pouch away from the body.
- Use the battery pouch to hold an NP-style battery and cap.
- Route battery cable out of the battery pouch internally to the MixPre DC input.
- Use the internal pocket to hold wireless transmitters or receivers.
