

# CS-7

## Production Case for 7-Series Portable Recorders

*CS-7 shown with 722 Portable Recorder*

The CS-7 is a high-performance production case designed for the 7-Series Audio Recorders. Intended to be used during operation, the CS-7 holds the recorder with any sized removable battery. It can accommodate PortaBrace RM-series accessories on the front and can be mounted to the front of Sound Devices CS-442 (442 Mixer) and CS-302 (302 Mixer) bags. The CS-7 is built for Sound Devices by Porta-Brace.

### **FEATURES**

- Easy access to front panel control surface
- Full length side-exit cable and controller access
- Generous space below recorder to accommodate any depth removable battery
- Clear windowed cover for viewing front panel during covered operation
- Can accommodate RM-multi and RM-deluxe accessory pouches to hold wireless transmitters or receivers (RM-accessories sold separately through PortaBrace dealers)
- High-quality padded leather shoulder strap with metal clasps
